

## Spread your wings and soar high with us!

### Working @ MIAL

At MIAL, we have designed a culture that leads you where you want to reach. We ensure that you not only have great jobs, but great lives. We are committed to reward, develop and retain you. And we will share the responsibility for your career development with you. There will always be a range of resources available and your manager to help you determine and meet your developmental needs.

Mumbai International Airport Pvt. Ltd. (MIAL) has the mandate to manage, develop and modernize Chhatrapati Shivaji International Airport (CSIA) Mumbai. CSIA is India's busiest airport, currently serving 26 million passengers and handling over 0.55 million tons of cargo. In the next few years, MIAL will transform CSIA into a world-class airport with facilities and infrastructure to handle 40 million passengers and over 1 million tons of cargo, annually.

In evolving CSIA as the new global benchmark for airports, MIAL draws its inspiration from India's rich culture and heritage to create an entity that uniquely represents India's growing prominence on the global map.

### **We are looking for competent and confident professionals to partner us in realizing our vision in the following areas -**

#### **Airside Operations**

Job responsibilities include ensuring all airside operational facilities and infrastructure is compliant, safe and optimally utilized to maximize airport capacity. The candidate will also be responsible for ensuring that the emergency services are ever-receptive to respond to any situation.

#### **Terminal Operations**

Job responsibilities include effectively managing International and Domestic Terminal Buildings, facilitating airline operations and providing a world class passenger travel experience.

#### **Landside Operations**

Job responsibilities include control of Ground Transport Operations and Landside Facilities to ensure convenient and safe intermodal transfers for passengers and visitors.

#### **Engineering & Maintenance**

Job responsibilities include providing complete engineering & maintenance services for the Airport's entire infrastructure on a 24/7 basis. This includes Runway Lighting, Airfield Supply, Engineering Services to Terminal Buildings and Cargo Operations in relation to electrical, mechanical & civil support.

#### **Airport Operation Planning**

Job responsibilities include strategizing for optimization of airport capacity, compilation, analyzing operational data, allocation of runway slots and development of programs for continuous improvement of operational performance.

### **Cargo - Exports & Imports**

Job responsibilities include enabling customer examination, meeting pre-defined SLA's, vehicle management and all aspects of general & special cargo handling, using a state-of the art IT system. The job also calls for effective public interface with trade bodies & airline customers. Openings exist in Cargo Acceptance, Airline Documentation, Warehousing Functions, ULD Management, Documentation, Storage, and Interline Transfers.

### **Domestic Cargo**

Job responsibilities include managing operations in the new domestic facility. With increasing domestic air traffic, various positions are available to manage all aspects of Cargo Handling including acceptance, documentation, flight builds & interline transfers.

Candidates should be Graduates with 3-15 years relevant experience in the above mentioned areas. High-functional expertise including knowledge of procedures, excellent interpersonal skills, superior execution ability and a business focus are essential pre-requisites. All positions are based in Mumbai.

Candidates will be selected at appropriate levels based on previous experience. Apart from a very attractive remuneration & benefits package, MIAL provides a work environment conducive to learning and growth.

We also invite applications from candidates interested in partnering us in areas of Airport Control Centre, Airport Commercial, Real Estate & Construction.

Interested candidates may send in their detailed profile to [careers@gvk.com](mailto:careers@gvk.com)
